JFK assassination records appeals
FBI FOIA/PA attitude

Harold Weisberg 9/30/79

In the note he added to a Drew Pearson column as it was published Director Hoover referred to what persists in the FBI and its FOIA/PA processing and attitude.

After referring to the FBI's "too restrictive view" Hoover said that the supervisory personnel "are still blind to it."

In the hundreds of pages of documented appeals I have filed it is apparent that the FBI has never stopped unnecessary and unjustifiable withholdings.
